SUMMARY

I can develop and maintain websites based on client requirements and optimize websites for speed, scalability, and responsiveness. I'm always collaborate with designers to implement visual elements effectively and i ensure cross-browser compatibility and mobile responsiveness, likewise i'm conduct testing and debugging of web applications and also i'm stay updated with emerging technologies and industry trends and also i can provide technical support and troubleshooting for websites as needed.

WORK EXPERIENCE

Interns Completed

- Web Development Intern on NANDHA INFOTECH TECHNOLOGY.
- Java Programming Intern On INTERNPE .

TECHNICAL SKILLS

Languages

- HTML
- CSS
- JAVASCRIPT
- C   (Basic)
- PYTHON   (Basic)

Framework

- BOOTSTRAP

Library

- REACTJS (Debugging)
- REDUX
- SASS
- MUI (Components)

AREA OF INTEREST

- Frontend Development
- Web Development

LANGUAGES KNOWN

- English   - Both speak and write
- Tamil   - Both speak and write
- Kannada   - Speak Only

HOBBIES

- Writing Poem (Tamil)
- Dance
- Chess
- Reading

EDUCATION

Francis Xavier Engineering College

Bachelor's Degree in Computer Science and Engineering
2021 – 2025
Current CGPA: 8.00

Municipal Girls Higher Secondary School

Class 10th (2019) -84.8%
Class 12th (2021) - 87.2%

CERTIFICATIONS

Online Courses

- SOLOLEARN - Web Development Fundamentals.
- HACKERRANK - JavaScript (Basic & Intermediate).
- GREAT LEARNING- React Js.

Achievements

- Won 1st Prize in Paper Presentation (About real time Product based Presentation) at JJ College Of Engineering.
- Got Participation Certificate in Paper Presentation at National Engineering College.
- Got Participation Certificate in Code Debugging at Bannari Amman Institute Of Technology.

PROJECTS

- Image Search Engine Using Html, Css ,JavaScript.
- Text To Speech Converter Using Html, Css, JavaScript.
- Notes Webpage Using Html, Css, JavaScript with LocalStorage.
- Cloned The Website Name Called Thozhil Using Reactjs With MUI.
- Restaurant Website Using Html, Css as well as in Word Press.
- Automatic Irrigation Using Arduino an IOT project.(A Team Project)
